Applicant: Matthew C. Harmon

AMENDMENT

October 17, 2003

CLAIMS:

A platform for game plays within existing games. The E-Commerce Role Playing Platform:

- (a) Enhances interactive, multi-user game play via the Internet that will generate revenue for a variety of already established games
- (b) Provides a character input that requires imagination, intelligence, & skill from the user and his/her opponent and promoting a forum for non-aggressive competition between players of all ages
- (c) Storing a history of events, game play tactics, opponents (defeats/wins), and "game account" transactions for continued game play and learning through prior mistakes via the "game account", which is customized to suit each licensing company, and subsequently, each player who establishes an account.
